Dear homeowner,

We have designed this Preventative Maintenance Package with your residential garage door needs in mind.

With over 45 years of experience in the distribution, service, and installation of residential, commercial, and industrial overhead doors and security products across Western Canada, we are committed to excellence. Expertise comes from both skill and knowledge, and we bring a skilled team with practical industry knowledge to each job, every time.

Please contact us today to set up your Preventative Maintenance Program.

Value Through Preventative Maintenance

Creative Door's Preventative Maintenance Program is designed to improve and prolong the life of your garage door and operator equipment.

Preventative maintenance will:

- Ensure continuous and reliable operation of your overhead door and operator equipment
- Save costs for emergency repairs/parts and/or replacement calls
- Provide premises security
- Maintain an inventory record allowing us to promptly service your door with the required parts
- Provide you with a single source to handle all of your overhead door and operator needs
- Increase safety and help protect you and/or your family from serious injury due to equipment malfunction and/or failure

Save Money & Add Security With Our Preventative Maintenance Program

"It is critical that our overhead doors are working properly at all times. Our Preventative Maintenance Program and relationship with Creative Door has been exemplary over the past 10 plus years. The Preventative Maintenance Program has proven to reduce the number of service calls we make —ultimately reducing downtime and additional costs."

Creative Door saves the Edmonton Police Services time and money. I would strongly recommend Creative Door to any company or homeowner who wants their overhead doors to operate for a longer period of time and to save money."

*- Jerry Juzwa
Director of Facility Management
Edmonton Police Services*

Our Service Commitment to You

For manually and electrically operated doors we will:

1. Check, balance, and adjust if required
2. Check cables for wear and adjust if required
3. Check locking devices and adjust as required
4. Check vertical and horizontal tracks
5. Inspect shaft and lubricate bearings
6. Inspect cables, drums, hinges, rollers, track, and door sections
7. Check spring tension to ensure electric operator is not operating under extreme loads
8. Check and adjust weather stripping, where applicable
9. Check and adjust door travel limit
10. Check all remotes and safety devices

The Creative Door Experience

Our vision is to provide creative solutions at the highest standard for building access and security products. We guarantee our service ensuring that we do it right the first time.

At Creative Door, we employ the best, most qualified technicians to ensure each job is completed to the highest of standards. Our technicians are certified and experienced and provide expert solutions for even the most difficult challenges.
