

# YOUR ONE-STOP DOCK SOLUTION

# DOCK-SOLID SELECTION

Say good-bye to multiple loading dock vendors. And say hello to Creative Door Services™, your one-stop dock solution that has you covered with a variety of dock-solid equipment options.

## TAKE EFFICIENCY TO THE NEXT LEVEL

**Dock Levelers** make loading and unloading safer and more efficient. Adjust the difference in height and distance between your warehouse floor and a docked vehicle.

## KEEP SHELTERED AND SECURE

**Dock Shelters** provide a secure seal between vehicle and dock. Load quicker and leave bad weather on the outside. Perfect for airports, dockyards and warehouses.

## SEAL IT AND SAVE YOUR ENERGY

**Dock Seals** prevent building and vehicle damage while conserving energy by keeping heat or air conditioning from escaping.

## ABSORB THE IMPACT, LIGHT THE WAY

**Dock Bumpers** absorb impact and protect buildings and vehicles from costly damage. **Traffic Lights** increase dock safety by controlling incoming and outgoing traffic.

# DOCK-STAR SERVICE

Our quality loading dock products are backed by a full slate of dock service options to fit your operation's unique requirements. Our dock stars can install it, service it or upgrade it in a safe and timely manner.

## SERVICING YOUR EXISTING DOCK EQUIPMENT

**A Prescheduled Maintenance Program** lessens costly downtime, reduces urgent repairs, makes for more efficient shipping and receiving logistics, and provides an accurate assessment of your equipment's current condition for future budgeting.

## TIME TO REPLACE YOUR DOCK EQUIPMENT?

**Upgrading equipment allows for fixed capital investment** which can be amortized over upcoming budgets. Modernizing can also improve safety, increase efficiency, and create a better environmental seal to keep the outside out and the inside in. Partner with us, the dock experts.

## INSTALLS THAT FIT YOUR REQUIREMENTS

**Expert Installation** of your dock equipment from experienced professionals is what you'll receive. We have Red Seal electricians on our staff as well. Let the dock stars take care of all the details.

## SAFETY IS OUR TEAM'S TOP PRIORITY

**Safety First** is the number-one focus of our dock service team. Technician certification includes Manlift, Forklift, Fall arrest, Power actuated tools, First Aid trained, CSTS/WHMS, and H2S. Plus we're COR certified in every location.

# DOCK IT HERE

*Unload the worry of multiple dock vendors with an experienced, trusted solution—dock it here with Creative Door Services™. Streamline your dock management time with a single-source solution that does the heavy lifting for you.*

## COMMITTED TO SERVICE SINCE DAY-ONE

**Trusted Service** is what Creative Door Services™ customers have been experiencing for 50+ years. Put our knowledge and experience to work on your docks today.

## OUR DOCK SOLUTIONS TEAM DELIVERS RESULTS ACROSS WESTERN CANADA
