CELEBRATING 55 YEARS

YOUR GARAGE DOOR SHOULD WORK WHEN YOU NEED IT THE MOST.

An annual, planned maintenance program helps your door run smoothly and quietly, and catches small issues before they become big ones.

Your garage door is the heaviest, hardest-working moving thing in your house, and it opens thousands of times a year. A little planned care helps avoid the surprise breakdowns, helps to keep your home safe, and protects your investment. Pick the plan that fits your home, give us a call, and we will handle the rest.

BBB A+ accreditation & Rating with homeowners across Western Canada.

You have a price estimate before we show up and then you approve the final pricing before the work starts.

WHY A YEARLY TUNE-UP IS WORTH IT.

Your garage door has hidden parts that wear out over time.

Every visit, we check the parts you never think about: springs, cables, rollers, hinges, tracks, and the opener. Small adjustments now keep all of it working as one.

A tune-up costs less than one emergency repair.

A tune-up costs less than most single repairs, and far less than replacing a door or opener before its time. It is one of the least expensive line items your garage will ever have.

Garage door springs can cause serious injury if you try to fix them yourself.

Garage door springs are under enough tension to cause serious injury. This is the one job worth leaving to a certified technician.

A well-maintained garage door runs quietly and smoothly, every single time.

A well-maintained door is a quiet one. No grinding, no banging, no 6 a.m. wake-up call for the whole house.

With 8 branches across Western Canada, we are never far from your home.

Backed by 8 branches and local service teams across Western Canada, a certified technician is always close to home.

Signing up takes one phone call.

Book it. You get a clear written report on your door's health, with anything to watch.
