CELEBRATING 55 YEARS

IN MINING AND HEAVY INDUSTRY, OPERATIONAL UPTIME ISN'T OPTIONAL; IT'S ESSENTIAL.

Creative Door Services understands the unique pressures of these environments and offers planned maintenance solutions that help support compliance and minimize unplanned downtime. Our Planned Maintenance Program is built for the toughest environments. We help reduce emergency repairs, extend equipment life, and support your safety and compliance requirements all while keeping your intelligent access solutions systems running reliably, shift after shift.

YOUR OPERATION DEPENDS ON PERFORMANCE

We get it. You're dealing with:

- Highly regulated safety environments
- Demanding schedules with no room for downtime
- Exposure to dust, moisture, and temperature extremes
- Strict energy efficiency and environmental requirements

We're not here to sell you service; we're here to protect your uptime.

A PARTNER WHO GETS YOUR OPERATION

With over 55 years of experience and eight branches across Western Canada, Creative Door Services delivers expert, consistent support across every facility, no matter how remote or complex.

We maintain all makes and models, offer 24/7 emergency service at most locations, and carry one of the largest inventories of industrial-grade parts in the country.

INDUSTRIAL MAINTENANCE EXPERTISE

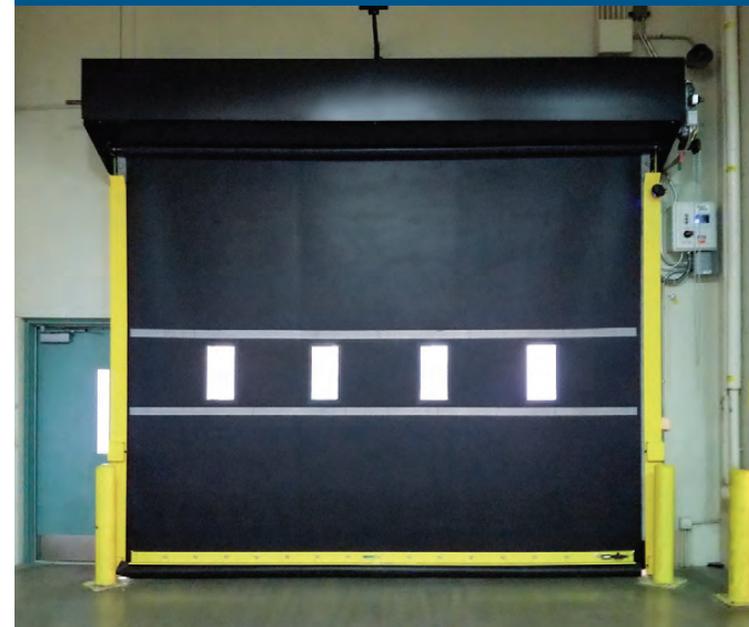

Our program covers all major access systems across your site:

- **Fire Doors** – Annual drop tests, safety device checks, drive chain tensioning, and lubrication
- **High-Performance Doors** – Inspect for curtain damage, wind lock wear, and reversing device functionality
- **Dock Levelers & Truck Restraints** – Check hydraulic lines, weld integrity, and safety systems
- **Grilles, Roll Shutters, & Counter Shutters** – Identify worn pins, track issues, and ensure safety devices are operational
- **Hangar & Multi-leaf Blade Doors** – Service large-format doors used in equipment bays and processing areas
- **Pedestrian Doors** – AADAMS-certified inspections to maintain safe entry and exit
- **Sheet Doors, Gates & Drive Chains** – Inspect and lubricate moving parts to ensure reliable daily use

COMPLIANT.
CERTIFIED.
COVERED.

PLANNED MAINTENANCE FOR HEAVY INDUSTRIAL & MINING

1. Predictable, scheduled service, and no more scrambling for emergency repairs
2. Documented inspections that support compliance and audits
3. Optimized door and dock performance even in corrosive and/or remote environments
4. Fewer equipment failures, less downtime, and better safety
5. Expert technicians who understand the realities of heavy industrial sites

TALK TO THE TEAM THAT KEEPS MINING & HEAVY INDUSTRIAL MOVING

Protect your uptime, meet
compliance, and avoid
costly failures.

Let's build a maintenance
program that works as
hard as you do.
