

FireGuard® Slim

Fire-Rated Accordion Folding Doors

BENEFITS:

- Competitive pricing compared to swing doors
- Flexibility to enhance architectural design and visual appeal
- Easier to install and service, saving time and money!
- Compact footprint provides unhindered traffic flow
- Contributes to improved daylighting and unobstructed views
- Hygienic design minimizes touchpoints

MAXIMUM FIRE PROTECTION AT AN AFFORDABLE PRICE

New Won-Door FireGuard® Slim Fire-Rated Accordion Folding Door is the ideal solution for narrow corridor and small opening applications when affordability is a concern. Slim remains stacked and is deployed when activated by a fire alarm or smoke detector. Unlike traditional swing doors, Slim enhances the design appeal, traffic flow and safety of pedestrian access areas, making these applications wide open and free flowing.

THE FREEDOM TO OPEN UP MORE SPACE

Slim's clean, minimalist design creates an open, airy space in lieu of more cumbersome swing doors. This improves pedestrian access/egress, beautifies buildings and empowers architects, contractors and building owners with smart, aesthetically pleasing options that help achieve their vision.

FireGuard® | It's not what you see... it's what you don't see.

FireGuard® Slim Fire-Rated Accordion Folding Doors

Won-Door FireGuard® Slim single-parting system is ideal for straight, opening-protective applications. Slim achieves an industry-leading 14" stack depth while offering door widths up to 9' and heights of 7' or 8'. It can be fire-rated up to 90 minutes and meets all IBC/NFPA egress requirements.

The Solution to Common Problems

Slim eliminates costs associated with metal frames, hardware, astragals, magnetic hold-opens and other accessories, and has an installed cost similar to that of swing doors. Reduced installation sequence = cost savings!

Specifiable Options

- Available up to 9' in width
- Available in 7' or 8' heights
- Fire-rated up to 90 minutes
- Remote monitoring

See the Difference between a typical set of side-hinged swing doors on hold-opens versus the Slim horizontal sliding fire door, which gives you wide open corridors while providing the necessary fire-rated opening protection.
